

# Wall Street Goodbye

(Tune: Irene Goodnight, new words by Mary Sue Mead and the folk process)

**CHORUS:**     *Wall Street, Goodbye*  
                  *Wall Street Goodbye*  
                  *We've suffered long, we've suffered slow*  
                  *It's time to say goodbye*

So many issues out there, we don't know where to start  
But we see one big problem, Big Business has no heart

The economy is tanking,  
Big Business acts surprised  
But no one has any money to spend  
After they've been downsized

Get money out of politics, Get the ads out of campaigns  
Let's put a lid on Lobbyists, and end the gravy train

Corporations are not people, They have no right to vote  
Time to throw them overboard before they sink the boat

The government is deep in debt,  
It spends too much on war  
There isn't much to show for it,  
We're no safer than before

Stop profiting from disaster,  
Stop profiting from ill health  
The country needs a major change,  
It's time to share the wealth
