

# Hooray, ACA

Paul McKenna © 2015

Tune: "YMCA" by the Village People

People want affordable care  
For their families so they know that it's there  
When they need it, so in 2010,  
We enacted legislation.  
Congress fin'lly stepped to the plate  
And decided we could no longer wait  
And they acted for the good of the land,  
To bring health care to the nation.

**CHORUS:** And so we're saying hooray ACA,  
This legislation is with us to stay.  
After so many years, we have finally won,  
And a new day has now begun.  
And we are saying hooray ACA,  
And we're not letting them take it away.  
No matter what they do, no matter how they attack,  
We're movin' forward, we ain't goin' back.

The right wing has been reeling in shock,  
And they blabber and they talk and they talk.  
They're determined that they'll turn back the clock,  
Seems they have not heard the news that,  
People have been getting the word,  
And they've signed up and at last they're insured  
And they're finding that their hope is restored,  
And we don't intend to lose that. **CHORUS**  
**REPEAT CHORUS**
