

# Little Shelters

Tune by Malvina Reynolds

Words by Nancy Schimmel and Claudia Morrow

Little shelters in the Caymans,  
Little shelters made of hanky-panky,  
Little shelters in the Caymans,  
And we don't mean grass huts,  
These are shelters for corporations  
Who don't think they have enough of them  
So they buy up legislators who will give them tax cuts.

Little shelters from taxes  
South Dakota has a lot of them,  
But they don't make little shelters  
That will fit you and me,  
So us little folks pay the taxes  
And the big guys get the benefits  
So they have more money to subvert democracy.

(Repeat first verse)
